CornerStone Farm

Guarantees

CornerStone Farm is not a commercial poultry hatchery. We hatch quality over quantity. This practice offers sales of select young and mature fowl.

Live Birds

All birds shipped are guaranteed live delivery. A health guarantee up to 48 hours from arrival applies providing we are notified by phone with any losses within the 48 hours. Refunds or replacements are honored at the cost of the birds purchased alone, this does not include shipping and box.

CornerStone Farm assumes no responsibility for losses due to damage, negligence or if arrival is delayed past the delivery time as promised by the carrier, or if acceptance by the signed recipient exceeds 6 hours from the first notification of arrival.

Eggs

Fresh fertile hatching eggs are carefully packaged for safe shipment. We do not guarantee condition or hatchability of eggs due to handling and management of eggs outside our control once they leave our farm. We appreciate your understanding of this prior to placing an order.

All hatching eggs sales are met on a first come basis.
